RED SEA—WEST COAST.

COAST OF ABYSSINIA.

'ASAB BAY APPROACH AND ENTRANCE.

(1). Shoals N. E. of Jesirat Dhi-l-kaus.

The British Admiralty, London, has given notice—on the authority of the Commander of the Italian gun-vessel *Scillia*—of the existence of the undermentioned shoals lying about $3\frac{1}{4}$ miles N. E. of Jesirat Dhi-l-kaus, approach to 'Asab bay from the south-eastward:—

These shoals (*Scilla shoals*), composed of sand, extend one mile in a N. W. by N. and S. E. by S. direction; with a breadth of 5 cables; the shoalest spot, with a depth $2\frac{1}{2}$ fathoms at low-water, lies near the S. E. end of the shoal ground with the following bearings and distance:—

Rás Makawwa beacon	S. 16° W. distant $3\frac{1}{2}$ miles.
Saddle Mount	N. 89° W.
N. E. extreme of Jezirát Fátimah	N. 75° W.

Position.—Latitude $13^{\circ} 01'$ N.; longitude $42^{\circ} 58'$ E.

Note.—In a N. W. by N. direction from the above shoalest spot, at the distance of $3\frac{1}{2}$ cables, there is a depth of $3\frac{1}{2}$ fathoms at low-water; and at the distance of 7 cables, $4\frac{1}{2}$ fathoms at low-water; close around these patches the soundings are $5\frac{1}{2}$ to 6 fathoms at low-water.

(2). *Shoal eastward of Rás Makawwa.*

Also, of the existence of a shoal lying about 4 miles E. by N. & N. from Rás Makawwa, approach to 'Asab bay from the south-eastward:—

This shoal, composed of sand, and about 5 cables in extent, consists of five patches, having 3 to 5 fathoms water on them at low-water with $5\frac{1}{2}$ to 6 fathoms around at low-water. The shoalest patch (3 fathoms) lies near the centre with the following bearings:—

Roheitah bluff	S. 18° E.
Rás Makawwa beacon	S. 74° W.

Position.—Latitude $12^{\circ} 59'$ N.; longitude $48^{\circ} 01' 30''$ E.

(3). *Position and particulars of Bosanquet shoal.*

Also, with reference to this Department Notice to Mariners, No. 59 (2), of the 25th October 1886, on the existence of a shoal lying in the northern entrance to 'Asab bay, about $1\frac{1}{2}$ miles E. & N. from the position assigned to Bosanquet shoal:—

Further information has been received from the British Admiralty, London, that the shoal therein described is *Bosanquet shoal*.

Bosanquet shoal (not marked by discoloured water), composed of coarse sand and broken shells, with depths of $3\frac{1}{2}$ to $5\frac{1}{2}$ fathoms at low-water, extends about $3\frac{1}{2}$ cables in a N. W. and S. E. direction, with a breadth of $2\frac{1}{2}$ cables at low-water; on its northern side the depths increase quickly to 11 fathoms at low-water; it lies with the following bearings:—

West extreme of Jázirát Fátimah	S. 33° E
Saddle Mount	S. 49° W.
Sanáh Bór islet summit	S. $86^{\circ} 30'$ W.

Note.—When on this shoal, Ganga and Saddle Mounts are nearly in line.
The bedings are magnetic.

INDUS RIVER.

Entrance and approach to Kurrachee Harbour.

The following revision of a notification on the authority of the Port Officer of Kurrachee is published for general information:—

LIGHTS.—The entrance to the port is marked by two lights called respectively the Manora point and Breakwater. The Manora point light, adjoining the S. W. bastion of Manora fort, West point of entrance, is a round stone tower painted white; it exhibits a

dioptric revolving white light of the first order, showing a bright flash every two minutes. The light, which is 150 feet above the level of the sea, is visible in clear weather 20 miles in every direction seaward, and was first lighted in its present position in the year 1848, but was subsequently altered to a revolving light in 1877; latitude $24^{\circ} 47' 21''$ N., longitude $66^{\circ} 58' 15''$ E. The Breakwater light is a red fixed light, and is exhibited at the extreme end of the breakwater to facilitate the entry of steam-ships into the port at night; it is 46 feet above high-water level, and is visible about 8 miles.

KURRACHEE HARBOUR.—In supersession of former Notice No. 18, issued by the Superintendent, Marine Survey of India, Calcutta, on the 30th November 1876, on the directions for entering and leaving the Port of Kurrachee, the following, with reference to draught of vessels, received the sanction of the Commissioner of Sind on the 29th September 1886:—

TIDES.—It is high water full and change at Manora point light-house at 10h. 30m.; the average rise and fall of springs is 9 feet 6 inches, and neaps 5 to 6 feet.

DEPTH OF WATER IN ENTRANCE CHANNEL.—During spring tides, there will be found a depth of 29 feet 6 inches, and in neaps 25 to 26 feet at high water.

DRAUGHT OF VESSELS.—Vessels with a draught not exceeding 22 feet 6 inches can enter or leave the port without difficulty or risk during all seasons of the year; in the South-west Monsoon the maximum draught allowed is 23 feet; but for loading during springs and fine weather this might be increased at the discretion of the Marine authorities to 23 feet 6 inches. In the fair season, the maximum draught allowed is 24 feet 6 inches, but vessels can load to a greater draught outside the harbour with safety.

TIME OF TIDE FOR ENTERING PORT.—Sailing-ships should enter the port on the ebb-tide; steam-vessels can enter either flood or ebb at the pilot's discretion; but masters of vessels should not, on any account, attempt to enter the harbour without a pilot.

HARBOUR IMPROVEMENTS.—Among the extensive works executed, a breakwater has been built running out from Manora Point in a S by E. direction to a distance of 1,500 feet into 5 fathoms of water. This breakwater affords a complete shelter to the Entrance Channel during the South-west Monsoon; a channel has been opened through the bar with a depth of 20 feet at low-water spring tides, which is about 500 feet in breadth.

BUOYS.—The entrance to the harbour is marked by buoys one on each side of the channel.

Note.—A mail steamer arriving off the port during the night should burn two blue lights in quick succession when in the fair season a pilot will at once board; but during the monsoon she must keep off the port until daylight.

APPROACHES TO THE PORT.—General directions.—The coast of Sind should be approached with great caution; too much attention cannot be paid to the lead, more especially in passing the banks off the river mouths of the Indus, which are extending considerably to seaward. From a survey in March 1877 by Captain A. W. Stiffe, Indian Marine (Port Officer of Calcutta), the edge of the shoal water was $3\frac{1}{2}$ miles to seaward of the former position. It was then in latitude $24^{\circ} 04' 20''$ N., longitude $67^{\circ} 11' 50''$ E. By night a vessel should give the banks a berth of 15 to 20 miles, and if after passing the "Swatch" she does not get less than 18 to 20 fathoms, she may haul to the northward, not coming into less than 15 fathoms until the Kurrachee revolving light is seen. By day the breakers on the edge of the banks are a good guide, unless the water is quite smooth; but it is hardly possible for a vessel to run ashore by day, on account of the marked discolouration of the water, which extends some distance outside the banks. The tides during the springs are strong, the flood sets to the S.-E. and the ebb to the N.-W. From February to the end of the monsoon a strong south-easterly current may be expected running from 15 to 45 miles a day. During the south-west monsoon, vessels should make Rûs Muari or Cape Monze, which is 18 miles W. of N. from the Manora Point light-house, and keep to windward of the port if the weather is thick, or if the tide does not suit for entering the harbour. A allowance must also be made for a strong set to the S.-E. which prevails more or less during the south-west monsoon. Care must be taken not to bring Manora Point to the southward of E. by N., or go under 15 fathoms near Cape Monze. Masters of vessels should endeavour to make the port at daylight, and can with safety approach into 8 fathoms to about 2 miles distance from the light-house keeping it on any bearing from N. E. to N. N. E. and heaving to for a pilot.

ANCHORAGE IN THE ROADS.—From June to the middle of September vessels should on no account anchor, but stand off and on, keeping the principal light bearing from N. N. E. to N. E., 1 to 2 miles distance until boarded by a pilot or directed by signal. From September to the end of March, the anchorage is with the light-house bearing N. by E. to N. N. E., distant one mile, in 7 fathoms of water; and in April and May with the light-house bearing N. N. E. to N. E., half a mile distant in 8 fathoms of water.

Exhibition of Light at Bulhar.

The Port Officer, Aden, has given notice that on the 1st November 1886 a light was exhibited from a mast at the Port of Bulhar (which place is marked on the charts as uninhabited), near Berberah, on the Somali coast.

The light is a fixed white light, elevated about 50 feet above the level of the sea, and should be visible in clear weather in every direction seaward at a distance of 8 miles.

NOTE.—This light will indicate the entrance to the Port of Bulhar; and being chiefly for the use of dhows, it will be exhibited annually for six months only, i.e., from the 1st November to 30th April.

Position.—Latitude 10° 24' N., longitude 44° 20' E.

Intended alteration in Obstruction Point Light.

With reference to Notice to Mariners, No. 62, of 24th October 1886, issued by this Department, information has been received from the Port Officer, Aden, that on and after the 1st February 1887, the occulting light on Obstruction Point, Perim Island, will illuminate 164° of arc, or between the bearings of N. 42° W., through West and South, to S. 26° E., in order to better prevent vessels running on the shoal ground which extends on the northern side of the island, and also as a better guide to avoid the Azaies rock to the South.

The bearings are magnetic and from seaward.

NOTIFICATION.

The 22nd December 1886—It is hereby notified for general information, that the Lieutenant-Governor intends, if no valid objections be raised within one month from this date, to approve of the following notification and rules with regard to the collection of drift timber in the Gunduck river, in the Chumparun district:—

DRAFT NOTIFICATION.

The Lieutenant-Governor of the Lower Provinces of Bengal is pleased to direct, under section 45 of the Indian Forest Act (VII of 1878), and in continuation of the notification of the 3rd November 1879, that the river Gunduck and its tributaries, so far as they flow within his jurisdiction in the Chumparun district or along its borders, are areas

within which all unmarked wood and timber, and all wood and timber on which the marks have been obliterated, or defaced, by fire or otherwise, are deemed to be the property of Government unless or until any person establishes his right and title thereto under the provisions of the said Act and the rules made under it.

DRAFT RULES.

Drift Timber Rules of the River Gunduck and its tributaries so far as they flow in or along the boundaries of the Chumparun District, within the jurisdiction of the Lieutenant-Governor of Bengal, to be made under section 51 of the Indian Forest Act.

1. *Drift timber may be salved by any person.*—All pieces of unmarked wood or timber, and all pieces on which marks have been obliterated or defaced by fire, or otherwise found adrift, beached, stranded, or sunk in or on the banks of the river Gunduck, and its tributaries, may be salved by any person.

2. *Report to be made when wood or timber is salved.*—The salvor shall intimate the fact that he has salved wood or timber to the Forest Officer, or to such Police or other officer or subordinate as the Forest Officer may from time to time direct to receive such reports.

3. *Salvage fees.*—Any such person who shall have salved wood or timber under these rules shall be entitled to receive as salvage fees—

(a) in the case of wood or timber, the ownership of which is proved and admitted under section 47 of the Indian Forest Act—from the owner, through the Forest Officer, 50 per cent. of the value thereof, as adjudged by the Forest Officer;

(b) in the case of wood or timber that becomes vested in Government, under section 48 of the Indian Forest Act—from Government, 50 per cent. of the net balance of the sale account of the said wood or timber after deducting therefrom all expenses of transport and other charges (if any): such salvage fees to be paid after the sale has been effected.

4. *Payments required when drift timber is shown to be the property of a claimant.*—No such wood or timber shall be delivered to any claimant who (under section 47 of the Indian Forest Act) has been recognized to be the owner until, under section 50 of the said Act, he shall have paid to the Forest Officer 50 per cent. of its value as adjudged by that officer, together with such other expenses as may have been incurred in salving the said wood or timber. Should the recognized owner fail to make these payments within 10 days of his receiving intimation from the Forest Officer of the amount due, the property salved shall be dealt with (under section 48 of the Act) as unclaimed timber.

5. *Salved timber which may become vested in Government to be sold to the best advantage.*—All drift and stranded wood and timber salved under these rules, which may become vested in Government under section 48 of the Indian Forest Act, shall be sold to the best advantage after two months from the expiry of the period fixed for the disposal of claims under section 46 of the said Act.

6. *Penalty clause.*—Any person who shall infringe any of the provisions of these rules shall be punished with imprisonment which may extend to six months, or with fine which may extend to five hundred rupees, or with both.

COLMAN MACAULAY,

Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 31st December 1886.—It is hereby notified for general information that in the exercise of the powers conferred on him by section 4 of Act III (B.C.) of 1879 (entitled an Act to provide for the periodical inspection of Steam-boilers and Prime-movers attached thereto in the Town and Suburbs of Calcutta and in Howrah), the Lieutenant-Governor proposes to approve of the following draft of a revised set of rules framed by the Commissioners for the inspection of steam-boilers, unless good reasons are shown to the contrary within one month of the publication of this notification.

COLMAN MACAULAY,

Offg. Chief Secy, to the Govt. of Bengal.

Rules under Section 4, Act III (B.C.) of 1879, entitled an Act to provide for the Periodical Inspection of Steam-boilers and Prime-movers attached thereto in the Town and Suburbs of Calcutta and in Howrah.

I.—The office of the Commissioners for the Inspection of Boilers shall be attached to the office of the Commissioner of Police.

II.—A Boiler Commission shall be appointed to consist of the Commissioner of Police, or the Deputy Commissioner of Police or both, and not less than three other Commissioners to be appointed by Government from time to time; and it shall meet periodically (at least once a month) to arrange for the transaction of business, and one of the Commissioners shall be appointed President.

III.—It shall be the duty of the Commissioners at the monthly meetings—

(1) To examine the diaries of the Inspector and Assistant Inspectors, and pass such orders thereon as may seem necessary.

(2) To revoke or suspend any certificates under section 8.

(3) To hear any appeals preferred by owners of boilers under section 9.

(4) To keep a record of their proceedings in such form as may seem advisable, and submit a copy of the same to the Secretary to Government.

(5) To submit an annual budget to Government, showing the estimates, receipts, and disbursements of the Commission for the ensuing year.

(6) To submit an annual report reviewing the work done by the Boiler establishment during the year.

(7) To prescribe the registers and accounts which are to be kept up by the Secretary and office.

(8) To cause a statement of demands, collections, and outstandings to be prepared by the Secretary, and to scrutinise the same.

(9) To check the statement of demands, comparing the arrear demand with the statement of outstandings for the previous month, and the current demand with a statement of work done, to be prepared by the Secretary from the diaries of the Inspectors.

(10) To compare the statement of collections with the cash-book, and the cash-book with the Bank-book.

(11) To pass such orders as they may think fit for realising or otherwise disposing of the outstandings.

IV.—The Commissioners shall from time to time prepare and submit for the sanction of Government a schedule of the establishment and salaries they consider necessary for the purposes of this Act.

V.—After sanction of such schedule, the Commissioners shall have the power to appoint the Inspector, Assistant Inspectors and clerks, &c., and they shall also have power to suspend or remove such officers. The Inspector shall also be Secretary to the Commission, and he shall attend the office and keep such registers and accounts as the Commission may direct under rule III.

VI.—The Secretary shall be the head of the branch of the office of the Commissioner of Police, which is set apart for the work of the Boiler Commission, and shall be responsible to the Commissioner or Deputy Commissioner of Police for the good order and management of the office. He shall see that all notices are duly served, and that all fees are duly brought to account and paid into the Bank. He shall keep in his own custody all forms of certificates, declarations, check receipts, and vouchers. He shall himself verify the balance at credit, shown in the accounts of the Commissioners' office, with the balance in the Bank. He shall refer all matters of importance for the orders of the President.

VII.—Notices under section 6, requiring owners or persons in charge of boilers to make alterations or additions, shall only be given by the Inspector, and when any such notice is given, a copy of the notice served shall at the same time be forwarded by him to each member of the Boiler Commission. When an appeal is heard by the Commission, notice shall be given to the appellant, and any representation that may be made by him will be heard in the presence of the Inspector. The Inspector will also be heard, and local inspection made if necessary. The decision of the Commission will be given in writing, and such decision shall be final.

VIII.—When an inspection under the Act is completed, the Inspector making it shall forthwith, if satisfied that he can with propriety do so, give the owner, manager or agent of the steam boiler inspected a declaration in the form appended hereto.

IX.—The owner, manager or agent to whom a declaration is given under the last foregoing section shall, within fourteen days after the date of the receipt thereof, send the declaration, together with the amount of the fee named at foot thereof, to the office of the Commissioner of Police.

If he fails to do so, he shall forfeit a sum not exceeding five rupees for every day beyond that period, and the owner, manager or agent shall pay the sum so forfeited on the delivery of the certificate of inspection in addition to the fee payable for the certificate.

X.—Upon receipt of the declaration in the office of the Commissioner of Police, the Secretary shall prepare a certificate in the form prescribed by the Act. Such certificate shall be signed by the Secretary and the Commissioner of Police or Deputy Commissioner of Police, and

shall be delivered to the owner, manager or agent of the steam boilers inspected, on his paying the fees and other sums (if any) payable under rule IX on delivery of a certificate.

XI.—The declaration given shall have the effect of a certificate for 30 days from the date of inspection under rule VIII, but no longer; and unless the fees and other demands are paid and the certificate taken out within that period, the owner, manager or agent shall be liable to all the penalties prescribed in the Act for using an uncertificated boiler. Provided that, if the boiler is worked under a declaration for any period less than 30 days, the owner, manager, and agent shall nevertheless be liable to pay the same fee as if he had taken out a certificate.

XII.—For every certificate of inspection granted under this Act, the owner, manager or agent of the steam boiler inspected shall pay to the Commissioner of Police a fee calculated on the horse-power of the steam boiler according to the scale laid down in rule XVII; and such additional fee, in respect of the expense (if any) of the journey of the Inspector to the place where the boiler is situated, as is prescribed in rule XVIII.

XIII.—A certificate granted under this Act shall not be in force—

(1) After the expiration of one year from the date thereof, or

(2) After the expiration of the period, if less than one year, for which the boiler and machinery have been stated in the certificate to be sufficient, or

(3) After notice has been given by the Commissioners to the owner, manager or agent of the steam boiler to which the certificate relates that they have cancelled or suspended it.

XIV.—There shall be two kinds of inspection of boilers—

(a)—A thorough examination once every twelve months, inside and outside, to be made by the Inspector or Assistant Inspector in person, for which purpose the boilers must be empty, cool, and clean, and flues swept; and, if required by the Inspector, any parts or settings

removed for a complete examination of the boiler in every part.

(b)—An ordinary inspection made at any time when the Inspector has reason to believe the boiler is being improperly worked or that the person in charge is not competent.

XV.—The Inspector shall give one week's notice of every such intended thorough examination; and if after that notice the boilers are not empty, cool, clean, and ready for inspection on the date named, the Inspector shall prohibit the boilers from working, and shall report the case to the Commissioners. Further, if any request be made to remove fittings or settings, and such be not complied with, the Inspector shall in like manner stop the working of the boilers.

XVI.—The Inspector shall submit to the Commissioners at each meeting his report on every boiler inspected in the form of a diary which shall be recorded in the office.

XVII.—Fees for the delivery of certificates shall be charged according to the following scale:—

	Rs.
Boilers under 10 H.-P.	16
„ above 10 „ and under 20 H.-P.	20
„ „ 20 „ „ 40 „ „ 25

Telegram from the Government of India, Home Department, dated 29th December 1886.

“ Your telegram 28th. Imposition quarantine at Aden and Perim against Bombay sanctioned.”

RESOLUTION—A notification should be published in a *Bombay Government Gazette Extraordinary* bringing the B Quarantine Rules into operation at Aden and Perim against arrivals from Bombay.

2. Copies of the notification should be forwarded to the Political Resident, Aden, and the other officers and departments concerned, for information, with reference to Government Resolution No. 4444, dated 28th instant. Copies should also be forwarded to the Governments of India, Bengal, Madras and Ceylon, and the Chief Commissioner of Burma.

J. D. C. ATKINS,
Under-Secretary to Government.

NOTIFICATION.
GENERAL DEPARTMENT.

Bombay Castle, 30th December 1886.

No. 4454.—In exercise of the power conferred by Act I of 1870, the following rules for quarantine against cholera have been made by the Government of Bombay, with the previous sanction of the Governor-General in Council: they will take effect from the 28th instant in the Port of Aden and at Perim as a temporary measure:—

- I.—The Commander of every vessel, including buggalows or other native craft, arriving from Bombay shall, before entering the harbour, indicate by signal the port from which such vessel has come.
- II.—Such Commander shall not, except as hereinafter provided, allow any communication, either with the pilot boat, except orally, or with the shore, or with any other vessel or boat in the harbour.
- III.—Immediately on arrival the Commander shall cause the letter R of the Commercial signal Code to be hoisted, and shall keep the said flag flying during his stay in port or until authorized by the Health Officer to haul it down. If communication with the shore is not desired, the vessel shall anchor at such place as may be pointed out by the Port authorities, having regard to the season of the year. If communication with the shore is desired, the Health Officer shall go alongside the vessel, and, after all necessary enquiries, shall direct the Commander to take the vessel to the quarantine anchorage duly appointed and notified in that behalf by the Resident, there to remain for a period of seven days from the date of arrival, or for the shorter period prescribed in Rule IV, and undergo disinfection, which should apply as well to crew, passengers, effects and susceptible goods.
- IV.—If the Health Officer of the Port has sufficient evidence that no cases of a suspicious nature have taken place on board during the voyage, and if the vessel is besides in good hygienic condition, the duration of the quarantine will be diminished according to the following scale:—

After eight days of voyage	six days of quarantine.
Do. nine	ditto	five ditto
Do. ten	ditto	four ditto
Do. eleven	ditto	three ditto
Do. twelve	ditto	two ditto
Do. thirteen	ditto	and upwards	...	twenty-four hours of quarantine.

V.—If during the period a vessel is at the quarantine anchorage aforesaid, any case or cases of cholera should occur on board, the said vessel shall remain in quarantine for a period of seven days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rule III.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of seven days. If a case of cholera occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine, to be subsequently removed by members of their crews.

IX.—All vessels arriving at Aden and Perim, which may have communicated with vessels coming from Bombay, shall be subjected to the same quarantine as vessels arriving at Aden and Perim from that port.

X.—All vessels which have undergone quarantine in the manner above prescribed should have the fact clearly stated on their Bills-of-Health.

By order of His Excellency the Right Honourable the Governor in Council,

T. D. MACKENZIE,
Acting Chief Secretary to Government.

'ASAB BAY APPROACH AND ENTRANCE.

(1). *Shoals N. E. of Jezirát Dhi-l-kaus.*

The British Admiralty, London, has given notice—on the authority of the Commander of the Italian gun-vessel *Scilla*—of the existence of the undermentioned shoals lying about $3\frac{1}{2}$ miles N. E. of Jezirát Dhi-l-kaus, approach to 'Asab bay from the south-eastward:—

These shoals (*Scilla shoals*), composed of sand, extend one mile in a N. W. by N. and S. E. by S. direction, with a breadth of 5 cables; the shoalest spot, with a depth $2\frac{1}{2}$ fathoms at low-water, lies near the S. E. end of the shoal ground with the following bearings and distance:—

Rás Makawwa beacon	S. 18° W., distant $3\frac{1}{2}$ miles.
Saddle Mount	N. 89° W.
N. E. extreme of Jezirát Fátimah	N. 75° W.

Position.—Latitude $18^{\circ} 01'$ N.; longitude $42^{\circ} 58'$ E.

Note.—In a N. W. by N. direction from the above shoalest spot, at the distance of $3\frac{1}{2}$ cables, there is a depth of $3\frac{1}{2}$ fathoms at low-water; and at the distance of 7 cables, $4\frac{1}{2}$ fathoms at low-water; close around these patches the soundings are $5\frac{1}{2}$ to 6 fathoms at low-water.

(2). *Shoal eastward of Rás Makawwa.*

Also, of the existence of a shoal lying about 4 miles E. by N. $\frac{1}{2}$ N. from Rás Makawwa, approach to 'Asab bay from the south-eastward:—

This shoal, composed of sand, and about 5 cables in extent, consists of five patches, having 3 to 5 fathoms water on them at low-water with $5\frac{1}{2}$ to 6 fathoms around at low-water. The shoalest patch (3 fathoms) lies near the centre with the following bearings:—

Roheitsh bluff	S. 18° E.
Rás Makawwa beacon	S. 74° W.

Position.—Latitude $12^{\circ} 59'$ N.; longitude $43^{\circ} 01' 30''$ E.

(3). *Position and particulars of Bosanquet shoal.*

Also, with reference to this Department Notice to Mariners, No. 59 (2), of the 25th October 1886, on the existence of a shoal lying in the northern entrance to 'Asab bay, about 1½ miles E. ¾ N. from the position assigned to Bosanquet shoal:—

Further information has been received from the British Admiralty, London, that the shoal therein described is *Bosanquet shoal*.

Bosanquet shoal (not marked by discoloured water), composed of coarse sand and broken shells, with depths of 3½ to 5½ fathoms at low-water, extends about 3½ cables in a N. W. and S. E. direction, with a breadth of 2½ cables at low-water; on its northern side the depths increase quickly to 11 fathoms at low-water; it lies with the following bearings:—

West extreme of Júzi:á Fetimah	S. 33° E.
Saddle Mount	S. 49° W.
Sanáh Bór islet summit	S. 86° 30' W.

Note.—When on this shoal, Gauga and Saddle Mounts are nearly in line.

The bearings are magnetic.

INDIA—WEST COAST.

COAST OF SIND.

INDUS RIVER.

Entrance and approach to Kurrachee Harbour.

The following revision of a notification on the authority of the Port Officer of Kurrachee is published for general information:—

LIGHTS.—The entrance to the port is marked by two lights called respectively the Manora point and Breakwater. The *Manora point light*, adjoining the S. W. bastion of Manora fort. West point of entrance, is a round stone tower painted white; it exhibits a dioptric revolving white light of the first order, showing a bright flash every two minutes. The light, which is 150 feet above the level of the sea, is visible in clear weather 20 miles in every direction seaward, and was first lighted in its present position in the year 1848, but was subsequently altered to a revolving light in 1877; latitude 24° 47' 21" N., longitude 60° 58' 15" E. The *Breakwater light* is a red fixed light, and is exhibited at the extreme end of the breakwater to facilitate the entry of steam-ships into the port at night; it is 46 feet above high-water level, and is visible about 3 miles.

KURRACHEE HARBOUR.—In supersession of former Notice No. 18, issued by the Superintendent, Marine Survey of India, Calcutta, on the 30th November 1876, on the directions for entering and leaving the Port of Kurrachee, the following, with reference to draught of vessels, received the sanction of the Commissioner of Sind on the 29th September 1886:—

TIDES.—It is high water full and change at Manora point light-house at 10h. 30m.; the average rise and fall of springs is 9 feet 6 inches, and neaps 5 to 6 feet.

DEPTH OF WATER IN ENTRANCE CHANNEL.—During spring tides, there will be found a depth of 29 feet 6 inches, and in neaps 25 to 26 feet at high water.

DRAUGHT OF VESSELS.—Vessels with a draught not exceeding 22 feet 6 inches can enter or leave the port without difficulty or risk during all seasons of the year; in the South-west Monsoon the maximum draught allowed is 23 feet; but for loading during springs and fine weather this might be increased at the discretion of the Marine authorities to 23 feet 6 inches. In the *fair season*, the maximum draught allowed is 24 feet 6 inches, but vessels can load to a greater draught outside the harbour with safety.

TIME OF TIDE FOR ENTERING PORT.—Sailing-ships should enter the port on the ebb-tide; steam-vessels can enter either flood or ebb at the pilot's discretion; but masters of vessels should not, on any account, attempt to enter the harbour without a pilot.

HARBOUR IMPROVEMENTS.—Among the extensive works executed, a *breakwater* has been built running out from Manora Point in a S. by E. direction to a distance of 1,500 feet into 5 fathoms of water. This breakwater affords a complete shelter to the Entrance Channel during the South-west Monsoon; a channel has been opened through the bar with a depth of 20 feet at low-water spring tides, which is about 500 feet in breadth.

BOOYS.—The entrance to the harbour is marked by buoys one on each side of the channel.

Note.—A mail steamer arriving off the port during the night should burn two blue lights in quick succession when in the fair season a pilot will at once board; but during the monsoon she must keep off the port until daylight.

APPROACHES TO THE PORT.—*General directions*—The coast of Sind should be approached with great caution; too much attention cannot be paid to the lead, more especially in passing the banks off the river mouths of the Indus, which are extending considerably to seaward. From a survey in March 1877 by Captain A. W. Stiffe, Indian Marine (Port Officer of Calcutta), the edge of the shoal water was $3\frac{1}{2}$ miles to seaward of the former position. It was then in latitude $24^{\circ} 04' 20''$ N., longitude $67^{\circ} 11' 50''$ E. By night a vessel should give the banks a berth of 15 to 20 miles, and if after passing the "Swatch" she does not get less than 18 to 20 fathoms, she may haul to the northward, not coming into less than 15 fathoms until the Kurrachee revolving light is seen. By day the breakers on the edge of the banks are a good guide, unless the water is quite smooth; but it is hardly possible for a vessel to run ashore by day, on account of the marked discolouration of the water, which extends some distance outside the banks. The tides during the springs are strong, the flood sets to the S.-E. and the ebb to the N.-W. From February to the end of the monsoon a strong south-easterly current may be expected running from 15 to 45 miles a day. During the south-west monsoon, vessels should make Rás Muari or Cape Monze, which is 18 miles W. $\frac{1}{2}$ N. from the Manora Point light-house, and keep to windward of the port if the weather is thick, or if the tide does not suit for entering the harbour. Allowance must also be made for a strong set to the S.-E. which prevails more or less during the south-west monsoon. Care must be taken not to bring Manora Point to the southward of E. by N., or go under 15 fathoms near Cape Monze. Masters of vessels should endeavour to make the port at daylight, and can with safety approach into 8 fathoms to about 2 miles distance from the light-house keeping it on any bearing from N. E. to N. N. E. and heaving to for a pilot.

ANCHORAGE IN THE ROADS—From June to the middle of September vessels should on no account anchor, but stand off and on, keeping the principal light bearing from N. N. E. to N. E., 1 to 2 miles distance until boarded by a pilot or directed by signal. From September to the end of March, the anchorage is with the light-house bearing N. by E. to N. N. E., distant one mile, in 7 fathoms of water; and in April and May with the light-house bearing N. N. E. to N. E., half a mile distant in 8 fathoms of water.

[Second Publication.]
NOTIFICATION.

The 31st December 1886.—It is hereby notified for general information that in the exercise of the powers conferred on him by section 4 of Act III (B.C.) of 1879 (entitled an Act to provide for the periodical inspection of Steam-boilers and Prime-movers attached thereto in the Town and Suburbs of Calcutta and in Howrah), the Lieutenant-Governor proposes to approve of the following draft of a revised set of rules framed by the Commissioners for the inspection of steam-boilers, unless good reasons are shown to the contrary within one month of the publication of this notification.

COLMAN MACAULAY,

Off. Chief Secy. to the Govt. of Bengal.

Rules under Section 4, Act III (B.C.) of 1879, entitled an Act to provide for the Periodical Inspection of Steam-boilers and Prime-movers attached thereto in the Town and Suburbs of Calcutta and in Howrah.

I.—The office of the Commissioners for the Inspection of Boilers shall be attached to the office of the Commissioner of Police.

II.—A Boiler Commission shall be appointed to consist of the Commissioner of Police, or the Deputy Commissioner of Police or both, and not less than three other Commissioners to be appointed by Government from time to time; and it shall meet periodically (at least once a month) to arrange for the transaction of business, and one of the Commissioners shall be appointed President.

III.—It shall be the duty of the Commissioners at the monthly meetings—

(1) To examine the diaries of the Inspector and Assistant Inspectors, and pass such orders thereon as may seem necessary.

(2) To revoke or suspend any certificates under section 8.

(3) To hear any appeals preferred by owners of boilers under section 9.

(4) To keep a record of their proceedings in such form as may seem advisable, and submit a copy of the same to the Secretary to Government.

(5) To submit an annual budget to Government, showing the estimates, receipts, and disbursements of the Commission for the ensuing year.

(6) To submit an annual report reviewing the work done by the Boiler establishment during the year.

(7) To prescribe the registers and accounts which are to be kept up by the Secretary and office.

(8) To cause a statement of demands, collections, and outstandings to be prepared by the Secretary, and to scrutinise the same.

(9) To check the statement of demands, comparing the arrear demand with the statement of outstandings for the previous month, and the current demand with a statement of work done, to be prepared by the Secretary from the diaries of the Inspectors.

(10) To compare the statement of collections with the cash-book, and the cash-book with the Bank-book.

(11) To pass such orders as they may think fit for realising or otherwise disposing of the outstandings.

IV.—The Commissioners shall from time to time prepare and submit for the sanction of Government a schedule of the establishment and salaries they consider necessary for the purposes of this Act.

V.—After sanction of such schedule, the Commissioners shall have the power to appoint the Inspector, Assistant Inspectors and clerks, &c., and they shall also have power to suspend or remove such officers. The Inspector shall also be Secretary to the Commission, and he shall attend the office and keep such registers and accounts as the Commission may direct under rule III.

VI.—The Secretary shall be the head of the branch of the office of the Commissioner of Police, which is set apart for the work of the Boiler Commission, and shall be responsible to the Commissioner or Deputy Commissioner of Police for the good order and management of the office. He shall see that all notices are duly served, and that all fees are duly brought to account and paid into the Bank. He shall keep in his own custody all forms of certificates, declarations, check receipts, and vouchers. He shall himself verify the balance at credit, shown in the accounts of the Commissioners' office, with the balance in the Bank. He shall refer all matters of importance for the orders of the President.

VII.—Notices under section 6, requiring owners or persons in charge of boilers to make alterations or additions, shall only be given by the Inspector, and when any such notice is given, a copy of the notice served shall at the same time be forwarded by him to each member of the Boiler Commission. When an appeal is heard by the Commission, notice shall be given to the appellant, and any representation that may be made by him will be heard in the presence of the Inspector. The Inspector will also be heard, and local inspection made if necessary. The decision of the Commission will be given in writing, and such decision shall be final.

VIII.—When an inspection under the Act is completed, the Inspector making it shall forthwith, if satisfied that he can with propriety do so, give the owner, manager or agent of the steam boiler inspected a declaration in the form appended hereto.

IX.—The owner, manager or agent to whom a declaration is given under the last foregoing section shall, within fourteen days after the date of the receipt thereof, send the declaration, together with the amount of the fee named at foot thereof, to the office of the Commissioner of Police.

If he fails to do so, he shall forfeit a sum not exceeding five rupees for every day beyond that period, and the owner, manager or agent shall pay the sum so forfeited on the delivery of the certificate of inspection in addition to the fee payable for the certificate.

X.—Upon receipt of the declaration in the office of the Commissioner of Police, the Secretary shall prepare a certificate in the form prescribed by the Act. Such certificate shall be signed by the Secretary and the Commissioner of Police or Deputy Commissioner of Police, and

shall be delivered to the owner, manager or agent of the steam boilers inspected, on his paying the fees and other sums (if any) payable under rule IX on delivery of a certificate.

XI.—The declaration given shall have the effect of a certificate for 30 days from the date of inspection under rule VIII, but no longer; and unless the fees and other demands are paid and the certificate taken out within that period, the owner, manager or agent shall be liable to all the penalties prescribed in the Act for using an uncertificated boiler. Provided that, if the boiler is worked under a declaration for any period less than 30 days, the owner, manager, and agent shall nevertheless be liable to pay the same fee as if he had taken out a certificate.

XII.—For every certificate of inspection granted under this Act, the owner, manager or agent of the steam boiler inspected shall pay to the Commissioner of Police a fee calculated on the horse-power of the steam boiler according to the scale laid down in rule XVII; and such additional fee, in respect of the expense (if any) of the journey of the Inspector to the place where the boiler is situated, as is prescribed in rule XVIII.

XIII.—A certificate granted under this Act shall not be in force—

(1) After the expiration of one year from the date thereof, or

(2) After the expiration of the period, if less than one year, for which the boiler and machinery have been stated in the certificate to be sufficient, or

(3) After notice has been given by the Commissioners to the owner, manager or agent of the steam boiler to which the certificate relates that they have cancelled or suspended it.

XIV.—There shall be two kinds of inspection of boilers—

(a)—A thorough examination once every twelve months, inside and outside, to be made by the Inspector or Assistant Inspector in person, for which purpose the boilers must be empty, cool, and clean, and flues swept; and if required by the Inspector, any parts or settings

removed for a complete examination of the boiler in every part.

(b)—An ordinary inspection made at any time when the Inspector has reason to believe the boiler is being improperly worked or that the person in charge is not competent.

XV.—The Inspector shall give one week's notice of every such intended thorough examination; and if after that notice the boilers are not empty, cool, clean, and ready for inspection on the date named, the Inspector shall prohibit the boilers from working, and shall report the case to the Commissioners. Further, if any request be made to remove fittings or settings, and such be not complied with, the Inspector shall in like manner stop the working of the boilers.

XVI.—The Inspector shall submit to the Commissioners at each meeting his report on every boiler inspected in the form of a diary which shall be recorded in the office.

XVII.—Fees for the delivery of certificates shall be charged according to the following scale:—

	Rs.
Boilers under 10 H.P. ...	16
„ above 10 „ and under 20 H.P. ...	20
„ „ 20 „ „ 40 „ ...	25
